TEXTILE WORLD

A McGRAW-HILL PUBLICATION

INDEX

VOLUME 113
JAN. — DEC.
1963

McGRAW-HILL, INC.
330 WEST 42ND STREET, NEW YORK, N. Y.
10036

A

Air compressors (see **Compressed air**)

Air conditioning and cleaning (see also **Ventilation**)
- Air-conditioning unit (ESN) ... Dec. 126
- The Beattie Story: Pt. III – The best in air engineering ... Sept. 51
- Boiler reduces maintenance 100% (CC) ... Nov. 106
- How to boost cooling tower life (CC) ... June 130
- Insulated ceiling cuts costs three ways (CC) ... Dec. 85
- Modernizing for better quality, increased production ... Nov. 60
- More cool air – Same compressor cost (CC) ... Aug. 94
- Removing lint from chilled air ... Oct. 116
- The Twin Plants story – Pt. II: Engineering air – top to bottom ... Nov. 45

Alabama Textile Operating Executives (see **Associations**)

American Association of Textile Chemists and Colorists (see **Associations**)

Associations
- Alabama TOE notes high speeds ... Jan. 107
- Carding emphasis is changing: Alabama Textile Operating Executives ... Nov. 59
- Chemical finishing conference: delayed-cure resins steal the show at CFC ... Nov. 86
- Cotton Research Clinic – Automated yarn-manufacturing systems spark interest ... June 76
- 4th International Exhibition of Textile Machinery – The big Hanover Show: what to look for – how to find it ... Aug. 116

Automation
- Continuous automatic spinning comes to South America ... Apr. 44
- Control panel ups production 10% (CC) ... June 128
- The Twin Plants story – Pt. II: Engineering air – top to bottom ... Nov. 45

B

Beaming (see **Warp preparation and beaming**)

Belts, conveyor (see **Material handling**)

Bleaching (see also **Chemical treatment and finishing**)
- Added controls reduce bleaching costs (CC) ... Mar. 106
- Bleach wool and shrinkproof it ... Dec. 94
- Bleached stock unloader saves $10,000 (CC) ... Dec. 86
- Chelating agent for manganese may help in bleaching delustered nylon ... Mar. 79
- Complete purification of cotton before bleaching not desirable ... Feb. 81
- Eliminate damage caused by trace amounts of copper during the peroxide bleaching operation ... Sept. 77
- Glue, gelatin, or gluten protect against trace-copper damage ... Nov. 75
- Japanese pressure seal may speed open-width continuous processing ... Feb. 79
- Jet mixer meets need for peroxide dilution ... June 94
- Knot catcher saves lost time (CC) ... Apr. 104
- Modernizing for better quality, increased production ... Nov. 60
- Now – a one-bath routine for bleaching, dyeing ... Apr. 76
- Organic activators cut chlorite corrosion ... Apr. 76
- Organic phosphates improve bleaching ... Feb. 80
- Pottsville Bleaching & Dyeing Co. – fighting the profit squeeze in bleaching and dyeing ... Apr. 82
- Some optical brighteners reactive to cotton ... Dec. 95
- Stabilizers improve peracetic acid solutions ... Nov. 73
- The Stedman Story: How goods are finished ... June 101
- Teflon-coated liner stops rub marks (CC) ... Dec. 88
- 12-ways Stevens stays strong and competitive Pt. 8: By building up quality ... Aug. 48
- Washing methods affect the hand of chlorite-bleached fabrics ... Sept. 77
- Wax does not have to be all removed from cotton to get good absorption and dyeability ... Mar. 79

Blending (see **Opening, picking and blending**)

Braiding
- Czechs find fast way to separate flax from stems ... June 135
- Narrow Fabric Co. – growing with spandex ... Feb. 64

Building construction (see also **Maintenance buildings and grounds**)
- The Beattie story: Pt. I – The best in plant design: a new concept ... Sept. 44
- Magnolia finishing plant sets new records ... Oct 79
- The Stedman Story: how strong organization speeds growth ... June 44
- The Twin Plants story: building the best in textiles today ... Nov. 40
- Pt. I: Building for top-notch efficiency ... Nov. 41

C

Calculations, mathematical (see **Formulas and calculations**)

Cans, coiler (see **Material handling**)

Capacity, industry (see **Economics, textile-industry**)

Capital spending (see **Economics, textile-industry; Management**)

Carding
- Alabama TOE notes high speeds ... Jan. 107
- American Thread Co. – After modernizing, what next? ... Jan. 103
- Automated yarn-manufacturing systems spark interest ... June 76
- The Beattie Story: Pt. II – the best in manufacturing ... Sept. 47
- Big can handling made easy (CC) ... Feb. 104
- Bladenboro updating to cut costs, boost efficiency ... Mar. 42
- Calculated draft table for cards ... July 46
- Calender rolls (ESN) ... Mar. 150
- Card conversion (ESN) ... Jan. 139
- Card drive in a packaged assembly (ESN) ... Aug. 150
- Card drive works at increased speed (ESN) ... Jan. 131
- Card drives (ESN) Mar. 148 ... June 150
- Card feed handles long fibers (ESN) ... Feb. 128
- Card feeder saves $25,000 (CC) ... Sept. 126
- Card knock-off (ESN) ... Feb. 156
- Card produces four times as much sliver (ESN) ... Sept. 170
- Card safety knock-off (ESN) ... Jan. 141
- Carding emphasis is changing ... Nov. 59
- Carding improvements chalk up savings (CC) ... Jan. 110
- Coilers stretch doffing cycle 500% (CC) ... Aug. 92
- Compound card drive (ESN) ... Jan. 135
- Continuous automatic spinning comes to South America ... Apr. 44
- Drives mean 1 card shutdown not 20 (CC) ... Feb. 106
- Federal Spinning Corp. – new mill keeps expanding ... Dec. 63
- Fiber retriever reduces fiber loss (ESN) ... Oct. 150
- Granular cards double production (CC) ... Dec. 88
- High-speed coiler (ESN) ... Feb. 156
- How cotton mills run their tandem cards ... July 46
- Lapless card feeding: A big new step toward fully automated carding ... June 82
- Lapless feed improves sliver (ESN) ... Mar. 126
- New sliver cans take rough wear (ESN) ... Jan. 132
- New spinning cuts labor costs at Falls Mfg. Co. ... Feb. 68
- Pedestal bearing (ESN) ... Mar. 152
- Polyethylene sliver cans up efficiency (CC) ... Oct. 124
- Polypropylene staple processing ... Aug. 51
- Purifier ups yarn appearance one grade (CC) ... Apr. 108
- Pushbutton looms: newest success story ... Oct. 40
- Rolls crush trash in card webs (ESN) ... Feb. 127
- Spending $8.5 million to meet new markets and boost production ... Feb. 48
  - 1. Pell City – new machines, new products ... Feb. 49
  - 2. Eva Jane – boosting output ... Feb. 53
- Table for numbering card or drawing sliver ... July 56
- 12 ways Stevens stays strong and competitive Pt. 8: By building up quality ... Aug. 48
- Tufting yarn output boosted with the latest in equipment at Rocky Creek Mills ... Sept. 60
- V-belt that cannot stretch (ESN) ... Aug. 140
- Wellman Combing Co. – growing into America's biggest wool-combing plant ... Mar. 62
- Wire grinder (ESN) ... Jan. 137
- Woolen-system card consists of 2-card set and doffer (ESN) ... Sept. 182

Carpets
- Carpets – what sales will total ... Oct. 61
- Control panel saves one man (CC) ... Apr. 104
- New look for '63 (FYF) ... Jan. 127
- Outdoor carpet takes sun and rain (FYF) ... Sept. 119
- Rugs get new labels (FYF) ... Feb. 123

Chemical treatment and finishing (see also **Bleaching; Coated fabrics; Dyeing; Laminated fabrics**)
- Abrasion testers may not give true picture ... July 190
- Acrylic-fiber fabrics stretch 10 times more easily in hot water ... Feb. 81
- Aftertreatments boost strength of cyano-ethylated cotton over 40% ... July 188
- Afterwash improves fastness to light in resin dyes ... June 95
- Alginate compound improves wash-and-wear ... May 89
- Aliphatic amines – Key to new antistats ... Aug. 72
- Aluminum acetate improves the exhaustion of silicone-based water repellants ... Oct. 75
- AATCC gets researchers' report: multifunctional finishes are here ... Jan. 71
- Ammonia-and-steam treatments will kill fishy odors in resin-treated fabrics ... Sept. 77
- Ammonia bans troubles in using orighteners, neomycin in same bath ... Feb. 80
- Anionic detergent removes graphite from lace ... Nov. 75
- Asbestos-fiber paper that is nonflammable at 500 C. developed by Japanese ... Aug. 74
- Assistants speed dyeing of nylon, wool, cotton ... Dec. 93
- Australian snag-proofing process boosts wear-life ... Jan. 125
- Australians develop a scourable marking wax ... Sept. 137
- Automatic labeler puts on one a second (ESN) ... Mar. 125
- Before: mercerizing only – now: bleaching, too ... Jan. 87
- Belt padder saves labor and reduces steam consumption (ESN) ... Dec. 140
- Benzazole compounds will absorb UV rays ... May 90
- Better pigments for spin-dyeing and pigment-resin processes available ... Dec. 95
- Bleached stock unloader saves $10,000 (CC) ... Dec. 86
- Bonding agent locks polyester to rubber ... Nov. 75
- Bow-rotating device (ESN) July 278 ... July 290
- British service helps dyers match shades ... Oct. 74
- Buffered detergents for wool washing ... Aug. 73
- Calender comes in 124-in. width (ESN) ... Nov. 158
- Carpet shear (ESN) ... Dec. 130
- Cationic water repellent is durable and works on all fibers ... Dec. 94
- Chemical-manufacturing operations described by hieroglyphics ... Aug. 73
- Color interest runs high at annual AATCC meeting ... Dec. 108
- Color matching by computer ... Sept. 91
- Company offers color computer service ... Dec. 93
- Complete purification of cotton before bleaching not desirable ... Feb. 81
- Complex silver salt protects goods against bacteria – it's durable, too ... Jan. 72
- Control system for mercerizing process (ESN) ... Feb. 134
- Controller corrects bow, skew (ESN) ... Jan. 131
- Cotton-resin combination produces better knitted stretch fabrics ... June 95
- Cotton treated with formaldehyde resists high temperatures ... Oct. 75
- Cuprous iodide in polyamide fibers increases resistance to heat and light ... Apr. 77
- Custom coating: how to make it pay off ... Sept. 81
- Cutting pilling in polyester fabric ... May 91
- Czechs pull cloth over sharp edges to eliminate stiffness ... Jan. 125
- Decating machine (ESN) Oct. 148 ... Nov. 162
- Delayed-cure resins steal the show at CFC ... Nov. 86
- Detergent promises clean, antistatic nylon ... Sept. 76
- Dryer stops dyestuff migration (ESN) ... Sept. 148
- Drying controls for hot-air dryers ... May 90
- Drying machine (ESN) ... Feb. 152
- Drying speeds up removal of unwanted dye stains in disperse dyes ... June 95
- Durable antistat is easy to make and apply ... Feb. 79
- Durable antistats are crosslinking ... May 90
- Dye and finish migration: how to pinpoint, minimize it ... Apr. 93
- Dye chart – 1963 ... July 213
- Dyeable polypropylene comes closer ... Apr. 75
- Dyeboarder (ESN) ... July 288
- Dyeing additives for two-tone work point up differences in nylon ... Dec. 93
- Dyeing doubleknits in the piece ... Feb. 91
- Dyeing machines handle any stock (ESN) ... Jan. 134
- Edge positioner (ESN) ... July 290
- Everyday resins aid fixation of phthalocyanine dyes on rayon ... July 189
- Excess formaldehyde with wash-wear materials will reduce strength losses ... Dec. 95
- Fabric condition is important in resin treatment ... June 95
- Finish frees fabric from perspiration odor ... July 187
- Finishing powernet fabrics ... Nov. 91
- 5 advances in cotton technology ... Nov. 79
- Formaldehyde-hydrazide mix improves wash-wear properties ... Aug. 71
- Formamide increases density, hardness, and splitting resistance of felt ... Feb. 81
- French develop wash-wear finish that gives good crease resistance ... Apr. 77
- Gamma-ray exposure makes cotton creaseproof ... June 94
- Gelatin modifies resins to get special effects ... July 188
- Germ-resistant agent works on four fibers (FYF) ... Aug. 99
- German fiber tests give edge to chainless mercerizing systems ... Aug. 72
- German water repellent is fast to 10 washings ... Mar. 78
- Germans develop new resin finish that bleeds off static electricity ... Oct. 74
- Germans find resin mix for durable finishes ... Aug. 73
- Germans make azo dyes reactive and get superior washfastness ... Dec. 95
- Giant-size slack loop washer (ESN) ... Mar. 125
- Graft polymerization cuts static, raises heat resistance on nylon ... Sept. 77
- Handling 1,500 styles a year at W.J. Dickey & Sons Co. ... Oct. 85
- Handling system cuts time losses 10% (CC) ... Apr. 108
- Heat reclamation from waste hot water and stack gases ... May 90
- Heatsetter frees one-half shift a day (CC) ... Oct. 124
- Heatsetting effects on wool-Dacron blend fabrics ... Apr. 77
- High-density polyethylene emulsions give better abrasion resistance ... Nov. 75
- Hoist ups dyehouse space 20% (CC) ... Sept. 128
- Hot-water treatment for wash-wear finishes ... Mar. 79
- Infrared predryer ups production 20% (CC) ... Oct. 128
- Ingrain black for olefins ... Mar. 78
- Insoluble optical brighteners work better in resin finishes ... Sept. 77
- Insoluble whiteners work with resins ... Mar. 77
- Instrumentation of chemical-treatment equipment ... May 90
- Irradiation cuts strength losses in wash-wear-finished goods ... Nov. 75
- Japanese pressure seal may speed open-width continuous processing ... Feb. 79
- Japanese reactive dyes work on cotton, nylon ... Dec. 94
- Key to new softeners: saccharide esters ... July 188
- Knit-goods shrinking machine (ESN) ... Oct. 164
- Knot catcher saves lost time (CC) ... Apr. 104
- Low temperatures in storage cause wash-wear resins to develop odors ... July 190
- Metachrome method dyes polypropylene ... Dec. 95
- Metal formates method flameproofs carpeting ... May 89
- Mill-designed gear box saves $2,000 (CC) ... Feb. 104
- Milling machine works well on knit goods and blankets (ESN) ... Aug. 140
- Mixed resins reduce chlorine retention ... Feb. 81
- Modifying polyester fibers to get sheer, silky fabrics ... Sept. 108
- Moisture control cuts costs 10% (CC) ... Jan. 114
- Moldability for all-cotton fabrics ... Oct. 91
- Monoethanolamine bisulfite is good milling agent for wool ... Mar. 79
- Monoethanolamine bisulfite useful in permanent pleating of woolen fabrics ... Feb. 81
- Napper eliminates skilled operators (ESN) ... Dec. 140
- New chloride treatment gives cotton two tones ... July 189
- New method uses dextran to dye, shrinkproof rayons in one run ... Feb. 80
- New nylon-yarn finish boosts snag resistance ... Jan. 73
- The new sulfur dyes: what they do; how to apply them ... Oct. 82
- New way found to boost reactive-dye colors ... Apr. 76
- Newly developed epoxy compound looks good for wash-and-wear ... Apr. 76
- Now – a one-bath routine for bleaching, dyeing ... Apr. 76
- Now – only 1% shrinkage in cotton knitted fabrics ... Feb. 85
- Nylon solution for coating cottons ... May 91
- Old dye buckets cut filter costs 80% (CC) ... June 126
- One-step dyeing process revealed for cotton-acrylic blends ... June 94
- One-step process colors, finishes, binds ... Aug. 73
- Organic phosphates improve bleaching ... Feb. 80

(CC) Cost Cutters. (Ed) Editorial. (ESN) Equipment & Supply News. (FYF) Fibers, Yarns, and Fabrics.

Overloading dye becks may make patchy dyeings on wool ... Dec. 95
Piece-dyeing acrylic carpets ... Aug. 74
Pile-fabric finisher (ESN) ... June 168
Pilling in man-made-filter fabrics may be accentuated by excess tension in beck dyeing ... Feb. 81
Pilling is a function of fabric construction ... June 95
Plastic-coating fabrics leaves surfaces still porous ... Aug. 72
Polisher works on pile fabrics (ESN) ... Feb. 128
Polyester print pastes have carrier qualities ... Aug. 72
Polyethylene softeners wash well with resin finishes ... July 189
Polyurethane resins as finishing materials for cotton ... Apr. 77
Powered selvage uncurlers (ESN) ... Jan. 135
Preshrinker keeps knit goods in shape (ESN) ... June 147
Process boosts resistance of triacetate to heat ... Mar. 77
Process for napped rayon blankets prevents shedding, improves loft ... Mar. 78
Process makes woolens shrinkproof, pleatable ... Oct. 75
Quaternary compounds cut migration in phthalocyanine-resin processes ... Mar. 79
Radiation may cut loss of wash-wear strength ... Feb. 79
Range for dyeing and finishing ribbon is a continuous process unit (ESN) ... Aug. 153
Redox measurements can spot trouble in dyeing wool-polyester blends ... Mar. 77
Repeated coatings make nylon waterproof ... Feb. 80
Resin makes nonwovens resistant to water ... Feb. 80
Reversible crosslink finish is research goal ... Jan. 73
Rolling up resin-finished goods increases odor formation ... July 189
Rolls cut grinding costs to the bone (CC) ... June 126
Running small lots at a profit ... May 103
Safety checklist for textile chemicals ... July 196
Saving big money on strike-offs ... Sept. 85
Seam detector (ESN) ... Feb. 132
Selvage uncurler (ESN) ... Jan. 143
Shear blades (ESN) ... July 284
Shear works on all fabric types (ESN) ... Aug. 138
Shearing machine (ESN) June 156 ... Dec. 134
Shrinkproofing treatment for wool also gives wash-wear effect ... Sept. 75
Sizing for glass fiber needs no burning off ... May 91
Slat expander (ESN) ... Nov. 150
Sock boarder has automatic stripper (ESN) ... July 277
Sodium sulfite controls chlorine in new wool-shrinking process ... Feb. 81
"Soft" detergents are coming on fast ... Nov. 73
Softener works on all acrylic fibers ... May 91
Solvent-naphthenate dyes polypropylene ... Dec. 93
Space dyeing: how one mill does a good job of it ... Mar. 82
The Stedman Story: How goods are finished ... June 101
SURDD reports big strides in research ... June 93
Swiss develop finish for wash-wear rayons ... May 89
Swiss develop new antistat that is wash-fast, needs no curing ... Nov. 75
Swiss development improves rotproofing methods ... Nov. 74
Swiss find polyepoxides will link many dyes to cellulosic material ... May 91
System controls web width, guiding (ESN) ... Nov. 138
Teflon-coated liner stops rub marks (CC) ... Dec. 88
Tenter-feeder switch (ESN) ... Apr. 164
THPC-based flame retardants are now available commercially ... Aug. 71
Three brand-new approaches to make poly-propylene dyeing easier ... May 89
Today's wash-and-wear: getting better and better ... Mar. 85
Trimming the cost of CN cotton ... Feb. 95
12 ways Stevens stays strong and competitive
2: By shortening process steps ... Aug. 43
5: By using automatic controls ... Aug. 46
Ultrasonic emulsifier (ESN) ... Feb. 154
U.S. Rubber ok's 35 dyes for use on brand-new polypropylene fiber ... July 187
Vibrating conveyor makes cottons elastic ... Aug. 71
Washer-dryer reduces process time (ESN) ... Oct. 150
Washer-extractor for knit fabrics (ESN) ... July 288
Washfast antistats will work on all of today's man-made fibers ... Mar. 79
Washfast bactericide works well on nylons ... May 91
Wash-wear finishes for cotton take over market ... July 189
Wash-wear for linen ... Sept. 104
Wash-wear wools ... Nov. 73
Washing machine installed in three days ... Aug. 87
Waterproof fabrics that really do "breathe" ... Apr. 89
Weft straightening (ESN) ... Sept. 154
Wellman Combing Co. – growing into America's biggest wool-combing plant ... Mar. 62
Wide napper improves quality (ESN) ... Dec. 118
Yardage clock ups production 20% (CC) ... Dec. 86

Cleaners, textile-equipment
Automated yarn-manufacturing systems spark interest ... June 76
The Beattie Story: Pt. III – the best in air engineering ... Sept. 51
Crane-type cleaner (ESN) ... Nov. 154
Loom cleaning system (ESN) ... Nov. 146
Pressure spray gun cuts seconds 1% (CC) ... Sept. 130
Vacuum cleaner upgrades cloth (CC) ... Sept. 126

Cleaning, plant-maintenance (see **Maintenance, buildings and grounds**)

Cloth room
Control panel saves one man (CC) ... Apr. 104
Conveyer eliminates manual handling (CC) ... Dec. 85
Spending $8.5-million to meet new markets and boost production ... Feb. 48
1. Pell City – new machines, new products ... Feb. 49
2. Eva Jane – boosting output ... Feb. 53
12 ways Stevens stays strong and competitive – Pt. 8: By building up quality ... Aug. 48
Weaveroom quality control today: best practices and procedures ... Dec. 43

Coated fabrics (see also **Chemical treatment and finishing**)
Blend is silk-like (FYF) ... Jan. 127
Custom coating: how to make it pay off ... Sept. 81
High-modulus weave boosts glass fabric strength (FYF) ... Sept. 119
Microporous coated fabrics (FYF) ... Mar. 121
Nylon solution for coating cottons ... May 91
Plastic-coating fabrics leaves surface still porous ... Aug. 72
Polypropylene backing (FYF) ... Mar. 121
Repeated coatings make nylon waterproof ... Feb. 80
Vinyl embroidered (FYF) ... Mar. 121
Waterproof fabrics that really do "breathe" ... Apr. 89

Combing and lap winding
Comb makes 70 pounds per hour (ESN) ... Aug. 137
Comb runs 185 nips per minute (ESN) ... Sept. 148
Comb stops high-speed failures (ESN) ... Aug. 137
Comber timing chart ... July 52
Production table for high-speed comber ... July 52
Super lap machine ups output 280% (CC) ... Aug. 96
Wellman Combing Co. – growing into America's biggest wool-combing plant ... Mar. 62

Competition (see **Markets and marketing**)

Compressed air, air compressors
Air filter saves $150 a year (CC) ... Apr. 106
8 rules for updating your compressed-air system ... Mar. 114

Controls, electrical (see **Electrical equipment**)

Conveyors (see **Material handling**)

Cost control
Thinking modern on cost control ... May 47

Cost cutters Jan. 110, Feb. 104, Mar. 106, Apr. 104, May 122, June 126, Aug. 92, Sept. 126, Oct. 124, Nov. 106 ... Dec. 84

Costs, indirect
Managing office costs ... Feb. 73
Radial quillers cut waste cost $5,000 (CC) ... June 128

Costs, labor
Radial quillers cut waste cost $5,000 (CC) ... June 128

Costs, materials and supplies
7 tips on buying electrical switchgear ... Sept. 114
Storing 100,000 bales – Material handling report ... Jan. 48

Cotton processing (see process headings such as **Spinning, Chemical treatment and finishing, etc.**)

Cotton-crop analysis
Mid-South cotton: buy carefully ... Jan. 109
1962 cotton crop: What you can expect from it ... Apr. 64
Texas cotton: poor yields ... Dec. 71
Two late cotton reports – California's San Joaquin Valley cotton; West Texas cotton ... Mar. 66
Why buy high-grade cotton ... Oct. 113

Cranes (see **Material handling**)

D

Data handling
Billing system cuts labor by 66 2/3% (CC) ... May 122
Inventories: new economical way to control them ... Nov. 68
Keeping tabs on plant costs ... May 75
Machine controls dyeing (ESN) ... Dec. 118
Recording system lists machine data (ESN) ... Dec. 118
The Stedman Story: making mill paperwork easy ... June 51
12 ways Stevens stays strong and competitive – Pt. 4: By going after new-type equipment ... Aug. 45
The Twin Plants story – Pt. IV: Monitoring production: a new concept ... Nov. 52

Design, fabric (see **Fabric design**)

Drawing (see **Roving and drawing**)

Drives, electrical (see **Electrical equipment**)

Drying and drying equipment
Carrier ups dryer output 20% (ESN) ... Aug. 138
Dryer handles 125-doz. pair (ESN) ... Apr. 154
Drying today: what you should know about it ... Dec. 98
Pottsville Bleaching & Dyeing Co. – Fighting the profit squeeze in bleaching and dyeing ... Apr. 82
Three-cylinder dryer (ESN) ... Dec. 130

Dyeing (see also **Chemical treatment and finishing**)
Acrylic-fiber fabrics stretch 10 times more easily in hot water ... Feb. 81
Acrylic-fiber tows dyed under pressure ... Nov. 74
Aftertreatment removes loose reactive dye ... Jan. 71
Agitators save one man's time (CC) ... Oct. 124
AATCC panel answers many questions about dyeing cotton blends ... Oct. 73
Amine aftertreatment stabilizes dye bonds ... Sept. 76
Amine pretreatment erases many problems in dyeing olefins ... Sept. 76
Ammonia bans troubles in using brighteners, neomycin in same bath ... Feb. 80
Assistants speed dyeing of nylon, wool, cotton ... Dec. 93
Beam-dyeing machine handles woven and knitted goods (ESN) ... Oct. 152
Benzyl alcohol works best with hydrophobic dyes ... Oct. 75
British retarders aid one-bath wool-acrylic dyeings ... Apr. 76
British service helps dyers match shades ... Oct. 74
Carriers cut time, produce deeper shades ... Sept. 75
Changes in dyebath pH control dye levelness ... June 94
Color interest runs high at annual AATCC meeting ... Dec. 106
Color matching by computer ... Sept. 91
Combined processes dye polyester fibers ... Nov. 74
Company offers color computer service ... Dec. 93
Cut dyeing costs by ultrasonic vibration ... May 91
Dispersed oil-solubles will dye polypropylene ... Jan. 71
Dispersed solvent speeds wool dyeing ... Nov. 74
Dye chart – 1963 ... July 213
Dye wool a deep black in 1/4 hour ... Nov. 75
Dyebath additives combine fibers, dyes ... Oct. 73
Dyebath additives cut pigment migration ... Sept. 76
Dyeing additives for two-tone work point up differences in nylon ... Dec. 93
Dyeing and bleaching kettle (ESN) ... May 156
Dyeing assistant makes acid reactive dyes work ... Nov. 74
Dyeing doubleknits in the piece ... Feb. 91
Dyeing quality sweaters ... Jan. 95
Dyes don't stain wool in polyester blends ... Sept. 77
Edge guide for web control (ESN) ... May 142
Emulsifier (ESN) ... May 160
Extractor leaves a uniform amount of moisture in yarn (ESN) ... July 282
Federal Spinning Corp. – new mill keeps expanding ... Dec. 63
Finishing powernet fabrics ... Nov. 91
Foaming dye assistants can reduce dye-liquor circulation ... June 95
450 dozen pairs in eight hours (ESN) ... Aug. 138
Free-sulphur treatment gives dyes better all-around fastness ... Oct. 75
German dyeing method cuts specking problems ... Aug. 73
German process gives resists on soluble-vat grounds ... Sept. 77
Germans make azo dyes reactive and get superior washfastness ... Dec. 95
Handling 1,500 styles a year at W.J. Dickey & Sons Co. ... Oct. 85
Hexamethylene tetramine boosts dye leveling ... Jan. 73
Hoist ups dyehouse space 20% (CC) ... Sept. 128
Homogenizer cuts mixing labor 75% (CC) ... Mar. 108
Instrumentation of chemical-treatment equipment ... May 90
Jack speeds spring loading 30% (CC) ... Oct. 128
Japanese pressure seal may speed open-width continuous processing ... Feb. 79
Japanese reactive dyes work on cotton, nylon ... Dec. 94
Loom speed at Cuckson Textiles ... Aug. 54
Metallics piece dyed (FYF) ... Mar. 121
Metrachrome method dyes polypropylene ... Dec. 95
New leveling agents boost dyeing speeds ... June 94
New method uses dextran to dye, shrinkproof rayons in one run ... Feb. 80
New process wrinkle improves tow dyeing ... Feb. 79
The new sulfur dyes: what they do; how to apply them ... Oct. 82
New way found to boost reactive-dye colors ... Apr. 76
Now – a one-bath routine for bleaching, dyeing ... Apr. 76

Yarns, manufacturing of
Acrylic yarn bulked (FYF) ... June 141
Crimping machine operates at speeds up to 300,000 rpm (ESN) ... May 160
Dickey, W. J. & Sons, Inc., keep a family-operated woolen mill at the top ... Oct. 54
False-twist texturizing machine works on all yarns from 12 to 3,000 denier (ESN) ... Aug. 140
From Germany: the latest word in worsted technology ... Nov. 64
Japanese use light to make nylon 6 (FYF) ... Sept. 120
Modernizing for better quality, increased production ... Nov. 60
Russians combine two processes to spin man-made fiber ... Sept. 137
Spandex yarn opens new doors for your fabric designers (FYF) ... Sept. 121
Textured nylon rockets ahead – Here's how to handle it (FYF) ... Aug. 101
U.S. Rubber spending $1-million to turn out high-grade tufting yarns ... Oct. 58
Wool-like elasticity with new British crimp process ... Jan. 125
Yarn steamer – a straight-through machine (ESN) ... Oct. 165

Yarns, new
Acrylic yarn comes texturized (FYF) ... Nov. 117
Carpet nylon – how to process it (FYF) ... Nov. 119
Drapery yarn (FYF) ... Feb. 123
Dynel filaments (FYF) ... Apr. 113
Insulate on the spot (FYF) ... Jan. 127
Lycra in outerwear (FYF) ... May 129
New ways to produce dyeable olefin (FYF) ... Dec. 74
Nylon gets finer (FYF) ... Mar. 121
Nylon tire yarn moves up quickly (FYF) ... Dec. 73
Nylon today – how it grew up; where it's headed ... Oct. 45
Polyester looms big in stretch fabrics (FYF) ... Aug. 102
Polyester staple reduces pilling (FYF) ... Dec. 73
Polypropylene bulking effect called 'popcorning' (FYF) ... Aug. 101
Spandex named (FYF) ... Jan. 127
Three-fiber blend (FYF) ... May 129
Three nylons added (FYF) ... June 141
Tire yarn improved (FYF) ... Jan. 127
Yarns go cozy – intimate blends of filament yarn and staple (FYF) ... Mar. 121

INDEX TO COMPANIES AND MILLS

A

ADVANCE FINISHING CO. – Piece-dyeing acrylic carpets ... Aug. 83
AMERICAN & EFIRD THREAD MILLS, INC. – Color matching by computer ... Sept. 91
Removing lint from chilled air ... Oct. 116
AMERICAN THREAD CO. – After modernizing, what next? ... Jan. 103
Consolidating for better warehousing ... Apr. 52
AUGSBURGER KAMMGARN-SPINNEREI (ARS) – The latest word in worsted technology from Germany ... Nov. 64
AVONDALE MILLS – Spending $8.5 million to meet new markets and boost production
R. B. Pressley ... Feb. 48
1. Pell City – new machines, new products ... Feb. 49
2. Eva Jane – boosting output ... Feb. 53

B

BLADENBORO COTTON MILLS, INC. – Updating to cut costs, boost efficiency ... Mar. 42
BOTANY FINISHING CO. – Dyeing doubleknits in the piece ... Feb. 91

C

CAROLINA MILLS – Now – only 1% shrinkage in cotton knitted fabrics ... Feb. 85
CHESNEE DIV. – REEVES BROS. – Replacing 128 deliveries with 26 ... June 57
CHICOPEE MFG. CORP. – Getting started with a new fiber ... Mar. 46
CHIQUOLA MFG. CO. – Solving the floor-space problem ... June 58
CITATION DYE WORKS – Dyeing quality sweaters ... Jan. 95
COOPER TEXTILE MILLS – Finishing powernet fabrics ... Nov. 91
CORONET CARPET MILLS, INC. – Piece-dyeing acrylic carpets ... Aug. 83
CUCKSON TEXTILES PTY. LTD. – Fastest looms we've heard of ... Aug. 54

D

DAN RIVER MILLS INC. – Getting top results in slashing ... Feb. 60
DICKEY, W.J. & SONS, CO. – Handling 1,500 styles a year ... Oct. 85
Keeping a family-operated woolen mill at the top ... Oct. 54

F

FALLS MFG. CO. – New spinning cuts labor costs ... Feb. 68

(CC) Cost Cutters. (Ed) Editorial. (ESN) Equipment & Supply News. (FYF) Fibers, Yarns, and Fabrics.

M.J. FASSLER & CO. – Custom coating: How to make it pay off ... Sept. 81
FEDERAL SPINNING CORP. – New mill keeps expanding ... Dec. 63
FIGI SPINNING MILL – Lapless card feeding: A big new step toward fully automated carding ... June 8
FLAGG-UTICA CORP., DIV. OF GENESCO, INC. – Keeping tabs on plant costs ... May 75
FLORENCE DYE WORKS – No-static blending for worsted tops ... Dec. 61

G

GOODRICH, B. F., CO. – Martha Mills makes a success of industrial relations ... May 66

H

HANES, P. H., KNITTING CO. – Now – drawing runs at 1,170 fpm ... June 57

K

KENDALL CO. – How modernizing quality control pays big dividends ... May 76
KENNETH COTTON MILLS – Pushbutton looms: newest success story ... Oct. 40

L

LAUREL PLASTICS, INC. – Polypropylene fabrics from weaving to finishing ... Apr. 48
LEBANON KNITTING MILLS, INC. – Worsted roving hits high speed ... Oct. 49
LONGVIEW YARNS, INC. – Space dyeing: how one mill does a good job of it ... Mar. 82

M

MAGNOLIA INDUSTRIES, INC. – Trimming the cost of CN cotton ... Feb. 95
MORGANTON DYEING & FINISHING CO. – Running small lots at a profit ... May 103

N

NARROW FABRIC CO. – Growing with spandex ... Feb. 64
NORTHERN DYEING CO. – Washing machine installed in three days ... Aug. 87

P

PACOLET INDUSTRIES – New finishing plant sets records ... Oct. 79
POTTSVILLE BLEACHING & DYEING CO. – Fighting the profit squeeze in bleaching and dyeing ... Apr. 82

R

REEVES BROS., INC. – Waterproof fabrics that really do "breathe" ... Apr. 89
ROCKY CREEK MILLS, INC. – Tufting yarn output boosted with the latest in equipment ... Sept. 60
RUSSELL MFG. CO. – Modernizing for better quality, increased production ... Nov. 60

S

SCHWARZENBACH HUBER CO. – Putting a new model slasher to work ... Nov. 124
SOUTHERN MERCERIZING CO., INC. – Before: mercerizing only Now: bleaching, too ... Jan. 87
SOUTHERN REGIONAL RESEARCH LABORATORY – 5 advances in cotton technology ... Nov. 79
SPARTAN MILLS – Acting fast on new technology
1 – Off to a good start with the newest looms ... June 66
2 – Cutting labor costs in drawing – fast ... June 69
SPARTAN MILLS – BEAUMONT DIV. – Increasing drawing speed 666% ... June 60
SPINDALE MILLS, INC., – Making production control easy ... May 69
SPRING COTTON MILLS – How to get the most for your cotton dollar ... Mar. 67
STAFFORD PRINTERS, INC. – Saving big money on strike-offs ... Sept. 85
STANDARD KNITTING MILLS, INC. – Planned material handling ... Mar. 58
STEDMAN MFG. CO. – The Stedman Story: How strong organization speeds growth ... June 44
1: How manufacturing grows at top speed ... June 49
2: Making mill paperwork easy ... June 51
3: How goods are finished ... June 101
STEVENS, J.P. & CO. – Big, strong – and staying that way ... Aug. 41
Happy Anniversary . . . (Ed) ... Jan. 35
12 ways Stevens stays strong and competitive
1: By mechanizing handling ... Aug. 42
2: By shortening process steps ... Aug. 43
3: By improving old equipment ... Aug. 44
4: By going after new-type equipment ... Aug. 45
5: By using automatic controls ... Aug. 46
6: By improving process flow and layout ... Aug. 47
7: By mechanizing manual jobs ... Aug. 48
8: By building up quality ... Aug. 48
9: By running clean plants ... Aug. 50
10. By stretching capital dollars ... Aug. 50
11. By standardizing production ... Aug. 50
12: By upgrading its manpower ... Aug. 50
SWIFT MFG. CO. – Improving plant layout and process flow ... May 72

T

TOYO SPINNING CO. – Continuous automatic spinning comes to South America Leslie Warren ... Apr. 44

U

U.S. RUBBER CO. – Spending $1-million to turn out high-grade tufting yarns ... Oct. 58

V

VERTEX YARNS, INC. – New, economical way to control inventories ... Nov. 68

W

WARNER BROTHERS CO. – Keeping ahead with spandex fabrics ... Oct. 50
WELLMAN COMBING CO. – Growing into America's biggest wool-combing plant ... Mar. 62
WISCASSETT MILLS CO. – Improving quality and efficiency ... June 59
WOODSIDE MILLS – The Beattie story: everywhere you look – the best of everything Pressley & Ashmore ... Sept. 43
